

Project #8

Brookhaven National Laboratories

Brookhaven, NY

Owner-

Designer-Louis Berger Associates, East Orange, NJ

Rebuild and restore the headwaters of the Peconic River after a major clean up and environmental remediation project. Young worked with Berger ecologists to find appropriate species for replanting the headwaters, collect and establish an on-site nursery to store the plants, and then layout and plant behind the remediation contractor.

Aquatic planting at Brookhaven National Lab, June 2005.

Post planting in the restored headwaters of Peconic River at Brookhaven National Lab.
